

e-Commerce (Clothing)

25th July 2024

Reference from : Deepak Singh

Services

Full Site Costing excluding (Hosting, DB on Cloud, Maintenance after 1 Year) : 30K

What it Includes :

1. Fully Functional , Secured Website with Admin Panel for inventory management.
2. Razorpay Payment Integration 1 to 2 % fee on per Transaction.
3. Responsive User Interface.
4. 1 year Hosting Free on AWS (Amazon Web Service).
5. 10 GB and 750 Hrs/Month of DB Free till one Year (If any of them exceeds Limit will cost you some amount. But it won't exceed \$2).

Additional (If Required by Client) :

1. Proper UI/UX Design eCommerce: 30K+. Will create an interactive and attractive user interface. Everything will be based on the theme of the website. Users will have the best Experience while going through the site.
2. Website Service Management after 1 year : Min. Rs. 200/per change in website (Changes should be Documented).
3. Dashboard Analysis : 10K+
4. Social Media Creation/Handling : Min 2K varies as per Customer Requirement.
5. Load Balancer if the user feels the site is getting traffic above expectation. Load balancer will be implemented. Prices Varies as per the Scaling of the website.
6. Logo/Banner : Min : 2.5K

Security Concerns :

1. Website : Using Tech like Django and AWS makes sure the site is secured at its very best.
2. Database (DB) : Even if the site's instance is terminated for some reason, the data remains safe as RDS from AWS is used for DB.

Note :

- After One Year of Free Hosting and Best DB limit. Users will get Billed according to the Traffic coming to the site.
- AWS will be created at Client's End.
